LEDVANCE

OUR RESIDENTIAL HIGHLIGHTS FOR YOU

The ideal light whatever the situation. LEDVANCE offers tailor-made LED solutions to ensure that every corner of your home is illuminated in line with your wishes, creating a perfect synergy of emotion and function. Our current highlight products including decorative LED solutions such as the MAGNETIC BULBS or the highly efficient ENERGY CLASS A LAMPS set high standards in terms of design and sustainability.

01 DECOR FILAMENT TABLE

The luminaire turns heads with its floating filament design and can be used in various interior spaces thanks to its portability. Using touch technology, it's easy to dim by 25 %, 50 % or 100 %. The built-in lithium battery is rechargeable via USB cable. The carry strap (only for four versions) makes transporting the light particularly easy.

02 ENERGY CLASS A LAMPS

New additions: The twelve different types (40W to 100W replacements) in Energy Efficiency Class A enable average power savings of up to 60 % compared to standard LED lamps. And they last up to 60 years! The best response to the sharp rise in electricity prices and one of our many solutions for sustainable energy saving.

03 MAGNETIC BULBS

Lamps with innovative LED filament magnet technology without filament holders, perfect for decorative installations in homes and in general lighting. The warm white light effect and good quality of light provide a cozy atmosphere. The magnetic filament doesn't need any warm-up time and has a lifetime of up to 15000 hours.

04 DECOR FILAMENT DOWNLIGHT

Conceived in a minimalist floating filament design, the downlight features a light ring and spot that can be controlled independently from each other. The housing is made of silver aluminum. The energy-efficient LED downlight with IP20 protection offers a life of up to 25000 hours and very quick and easy installation. Suitable for living and dining rooms, studies or for decorative illumination of hallways.

Welcome to the past

Compact Fluorescent Lamps (CFLs)

Out of production. Still in stock. Limited availability.

Though CFLs are no longer manufactured, they remain a reliable lighting option for many commercial and domestic applications. Whether you're replacing existing fixtures or stocking up for long-term needs, we've got you covered — while supplies last.

 Product Range Available:

Types: Twin tube, triple tube, PL lamps, T5 & T8 tubes

Bases: G23d--, G24d--, G24q--

Wattages: From 5W to 26W

Color Temperatures: Cool White (4000K), Warm White (2700K), Daylight (6500K)

-  **Ideal** Existing CFL fittings and enclosures
Cost-conscious bulk purchases
Facilities maintenance and replacements
Customers transitioning gradually to LED

 **Limited availability.**

T5 & T8 tubes over 3ft will incur additional delivery charges.

 **Order Now — While Stock Lasts**

 Volume discounts available  Flexible lead times

 **Email: sales@multi-lite.co.uk**

 **Call: 0208 561 4501**
